

Hands-on Lab: Build a Mini Website on WordPress for Travel

Estimated time needed: 50 minutes

Objectives:

- **WordPress Account Setup:** Learn to create and manage a WordPress.com account and gain proficiency in the platform's dashboard and user settings.
- **Travel Website Creation:** Develop a functional travel website within WordPress.com, focusing on content creation, organization, and customization to suit the travel industry. The website will feature a menu with five distinct items: Home, About, Contact, Travel Destinations, and Recommendations.
 - The Home page will serve as the welcoming landing page, offering an introduction to the site and highlighting three popular travel destinations.
 - The About page will provide a detailed description of the website's purpose and mission.
 - The Contact page will furnish contact information and incorporate an email contact form for user inquiries.
 - Within the Travel Destinations section, we will categorize destinations into two types: Beach and City, each containing 2-3 items complete with images, descriptions, and guidance on how to reach these places.
 - Lastly, under Recommendations, we will further classify destinations into Adventurous and Family Trip categories, again with 2-3 items in each category, accompanied by images, detailed descriptions, and instructions on how to get there.
- **Utilize Stunning Themes:** Explore WordPress.com's diverse theme library and apply beautiful patterns and designs to enhance the website's visual appeal.
- **Multi-Page Construction:** Construct and structure multiple pages effectively, mastering the art of page creation, navigation menus, and interlinking for a seamless user experience.
- **Engaging Content Creation:** Learn to create compelling and informative content for the website, catering to the interests and needs of potential travelers.

Introduction to WordPress.com

- WordPress.com is a user-friendly, web-based platform that empowers individuals and businesses to effortlessly create and manage stunning websites. With a vast selection of customizable themes and intuitive tools, it offers the perfect solution for bloggers, entrepreneurs, and anyone seeking an online presence.
- Whether you are a novice or an experienced webmaster, WordPress.com provides a seamless experience for building and publishing content-rich sites, all hosted on their secure and reliable servers.
- Say goodbye to coding hassles and hello to a world of creative possibilities with WordPress.com, where your website dreams become reality. Start your online journey today!

Setup account on WordPress.com

Creating a WordPress site on WordPress.com is a straightforward process. Follow these steps to create an account and set up your WordPress site:

1. **Open Your Web Browser:** Open your preferred web browser (e.g., Chrome, Firefox, Safari) and go to the WordPress.com website: [wordpress.com](https://www.wordpress.com).
2. **Click on "Get Started":** On the WordPress.com homepage, you'll see a "Get Started" button. Click on it to begin the sign-up process.
3. **Create Your Account:** You'll be prompted to create an account. You can either sign up using your email address or use an existing Google or Apple account for a faster registration process. Fill in the necessary information and choose a strong password.

Note: After creating account if you are already directed to the Choose your Domain process as described in step 3 of exercise 1, then please proceed with the instructions starting from step 3.

The screenshot shows a web browser window with the URL wordpress.com/start/domains. The page has a dark header with a back arrow, forward arrow, and a refresh icon. Below the header is a navigation bar with a 'W' logo and a 'Back' link. The main content area features a large red-bordered box containing the text 'Choose your domain'. Below this box is a search bar with a magnifying glass icon and the placeholder text 'Search...'. To the right of the search bar is a small icon of a person in a speech bubble. A note below the search bar says 'The best names are short and memorable'. The bottom of the page includes a note about WordPress being free and a section titled 'Exercise 1: Setup WordPress Environment to Create a Site'.

Choose your domain

Find and claim one or more domain

Search...

💡 The best names are short and memorable

Note: WordPress is free to use and to create website for your page.

Exercise 1: Setup WordPress Environment to Create a Site

1. After login for the first time on **Wordpress.com** you will be redirected to its dashboard environment. To create your personal site, click on the My Sites as shown in the given screenshot.

The screenshot shows the WordPress.com Reader interface. On the left, there's a sidebar with a red box around the "My Sites" tab. Other tabs include "Reader" and "Recent" (which is highlighted with a blue bar). Below the tabs are links for "Search", "Recent", "Discover", "Likes", "Conversations", "Lists", "Tags", "Notifications", and "Manage subscriptions". A call-to-action button for the "WordPress.com app" is also visible. The main content area is titled "Recent" with the subtitle "Stay current with the blogs you've subscribed to.". It features a post by "WordPress.com News" from "Jeremy Anderberg" published "1d ago" about the "State of the Word 2023 Video + Recaps". The post thumbnail is a large red square with the text "STATE of the WORD 2023". Below the post are "Share" and "Comment" buttons, and a "Add a comment..." input field.

Note: If you are already directed to the website creation process as described in step 2, please proceed with the instructions starting from step 2.

2. Then you will be redirected to the site creation process. There, you need to click on **Create your first Site**.

Sites

Create your first site

It's time to get your ideas online. We'll guide you through the process of creating a site that best suits your needs.

[Create your first site](#)

3. You will be navigated to choose a domain for your site. First, enter the name for your website such as **Tours & Travel**, **tourandtravel**, or **travelandtour** and hit enter, as shown as number 1 in the screenshot. Then, it will ask you to choose a domain for your website. You can choose a free one, which is given in recommendations, shown as number 2 in the screenshot. Once you choose free one, click on continue shown as number 3 in screenshot.

3. In the third page, Click skip to dashboard for now.

Nice job! Now it's time to get creative.

Don't worry. You can come back to these steps!

-  **Draft your first post**
Start writing and build an audience
-  **Watch Blogging videos**
Learn the blogging basics in minutes
-  **Choose a design**
Make your blog feel like home

6. Once you click on **Skip to dashboard**, you will see your dashboard on **WordPress.com**.

The screenshot shows the WordPress dashboard with the following details:

- Top Bar:** "My Site" and "Reader" buttons.
- Header:** "Site Title" set to "tourandtravel320.wordpress.com" and "Coming Soon".
- Left Sidebar:** A sidebar with various menu items: "My Home" (selected), "Stats", "Upgrades" (Free), "My Mailboxes", "Posts", "Media", "Pages", "Comments", "Feedback", "Jetpack", "WooCommerce", "Appearance", "Plugins", "Users", "Tools", and "Settings".
- Main Content Area:**
 - Section:** "My Home" with the sub-section "Your hub for posting, editing, and growing your site."
 - Section:** "Next steps for your site" with three items:
 - ✓ Set up your site
 - ✓ Select a design
 - ✓ Choose a plan
 - Section:** "Write your first post"
 - Section:** "Launch your site"
- Bottom Content Area:** "Own a domain. Build a site." with the message "tourandtravel320.com is a perfect site address. It's available now! Get it now and claim a corner of the web." and the note "Don't worry about expensive domain renewals—.com, .net, and .org start at \$12/year".

Exercise 2: Customize the Site in WordPress

In this exercise, you will edit the site that you have created in exercise 1 and you will also create the different pages for your **travel** website.

1. On your dashboard, choose the **Customize** option from left-side menu bar under **Appearance**.

Site Title

Site Identity >

Homepage Settings >

Additional CSS >

- You will be redirected to a page where you will see the left sidebar menu. In that menu bar, you need to click on **Pages**.

The screenshot shows the WordPress Block Editor sidebar on the left. At the top, there's a site title placeholder 'Site Title'. Below it, a navigation menu includes 'Design' (with a back arrow), 'Navigation', 'Styles', 'Pages' (which is highlighted with a red box), 'Templates', and 'Patterns'. At the bottom, there's a 'Saved' status indicator.

The screenshot shows the WordPress dashboard. On the left, there's a sidebar with a search icon. The main area displays the title 'Site Title' at the top. Below it, the page content area shows the title 'Mindblown: a blog about...'. A large, light gray placeholder image is centered. At the bottom, the title 'Hello World!' is displayed.

4. In the **Pages** section, you will see two by default pages named **Blog Home** and **About**. Click on **Blog Home** and then click on the edit pencil as shown in the given screenshot.

Please note if "Blog Home" page is not displayed the navigate to Templates -> Blog Home

The screenshot shows the 'Blog Home' settings page. At the top, there's a site title placeholder 'Site Title'. Below it, the page title is 'Blog Home'. To the right of the title, there's an edit pencil icon, which is highlighted with a red box. The main content area describes what the 'Blog Home' page does and includes a 'POSTS PER PAGE' section with a value of '10' and plus/minus buttons. A note below explains how posts are displayed on the homepage.

5. Then, it will show you how to edit the pages by asking you to click on **Take the tour**. You can also choose to click on **Skip**.

Welcome to WordPress!

Exercise 3: Create Landing Page of Travel Website

You need to create one **Home page** or **Landing Page** which will include the introduction of your website and 3 of the popular travel sites. For this, you need to follow the given steps.

1. Click on **toggle block inserter** on top left corner within the page you want to edit. It will open several options to include in your page.

2. For instance, the initial step involves adding a header section. To do this, select the **header** option from the pattern menu tab. Subsequently, you can choose from the available options it presents.

A screenshot of the WordPress Block inserter. On the left, there's a sidebar with tabs: "Patterns" (which is highlighted with a red box), "Blocks", and "Media". Below the tabs is a list of categories: "Featured", "Blog Posts", "Text", "Image Gallery", "Call to Action", "Banners", "Header" (which is highlighted with a red box), "Footer", and "About". To the right of the sidebar, there are several preview cards for different header patterns. One card at the bottom shows a landscape image of a rocky cliff against a blue sky. The entire interface has a light gray background.

3. We have chosen the below header i.e header with button to include in the page.

The screenshot shows the WordPress Site Editor interface. On the left, a sidebar lists various patterns: Contact, Featured, Footer, Forms, Gallery, Header, Intro, Link in Bio, Newsletter, Podcast, Portfolio, Quotes, Services, and Template. The 'Header' pattern is selected and highlighted with a blue background. The main content area displays a 'Header' section with a search bar and a button labeled 'Manage'. A red box highlights the 'Header with Button' example, which features a dark header bar with white text and a blue button. Below this are other header variations, including one with a decorative image of vases and books.

4. To make changes in the header, you need to select the header title as shown at number 1 in given screenshot, then click on settings at number 2, after this click on style at number 3, and then choose size accordingly at number

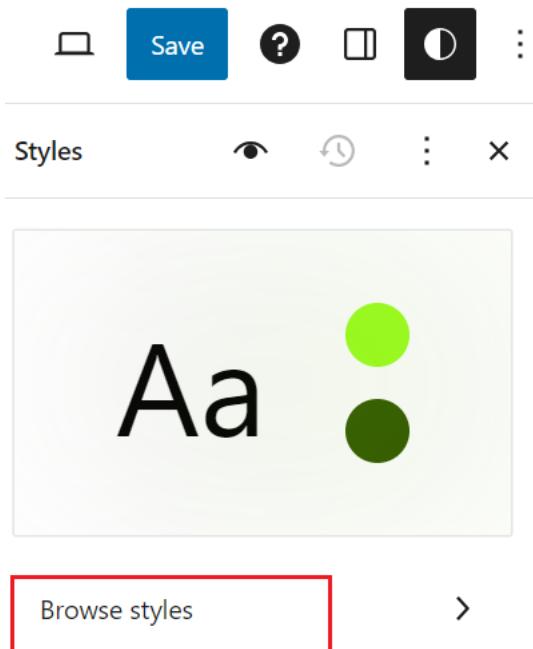

The screenshot shows the WordPress editor interface. A header block containing the text "Tour and Travel" is selected, indicated by a red border around the block. To the right of the block, there is a "1" inside a red circle, likely indicating the step number. Below the block, a toolbar contains icons for bold, italic, underline, and other styling options. In the top right corner, there is a "Blog Home" button and a "About" button.

5. You can also change the color layout of the entire header block by selecting it and then clicking on style options at top right corner.

The screenshot shows the WordPress editor interface. A header block containing the text "Tour and Travel" is selected, indicated by a red border around the block. To the right of the block, there is a "1" inside a red circle, likely indicating the step number. Below the block, a toolbar contains icons for bold, italic, underline, and other styling options. The header block has a red border, and the background of the editor has horizontal red and blue lines, suggesting a color palette or style selection tool is active.

6. Edit style using given steps:

1. Click on **Browse Styles**.

Browse styles

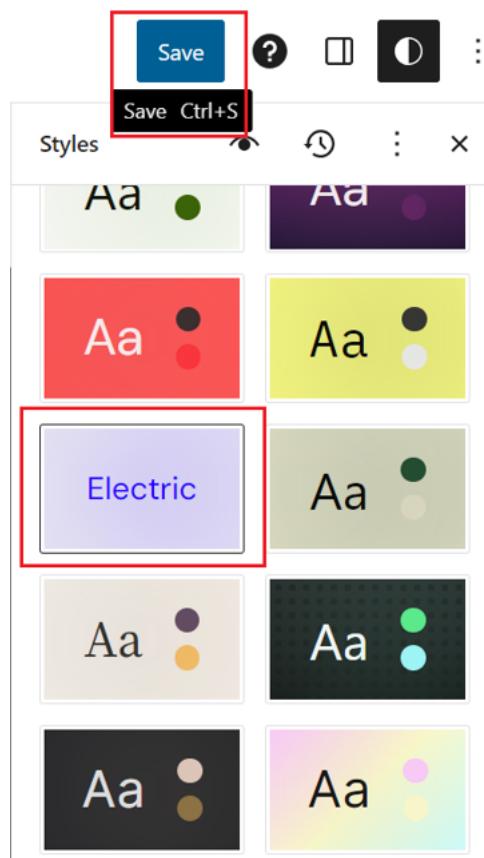

>

Aa Typography

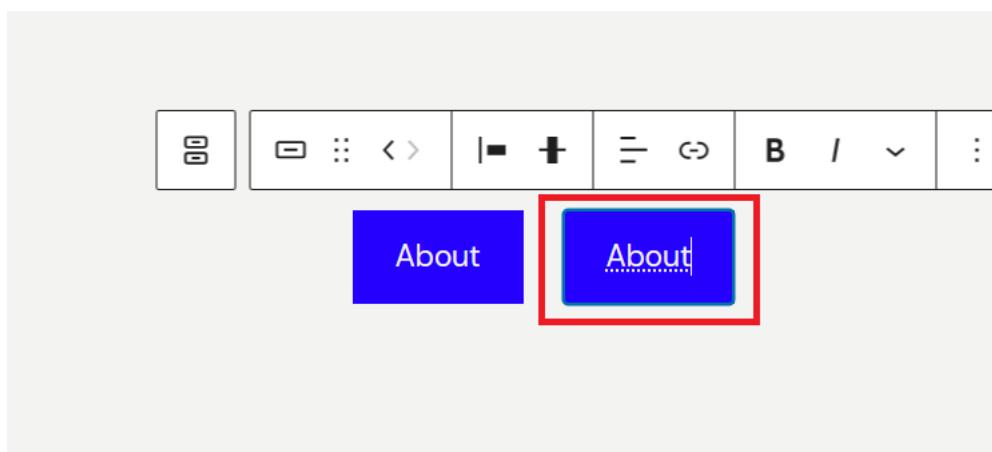

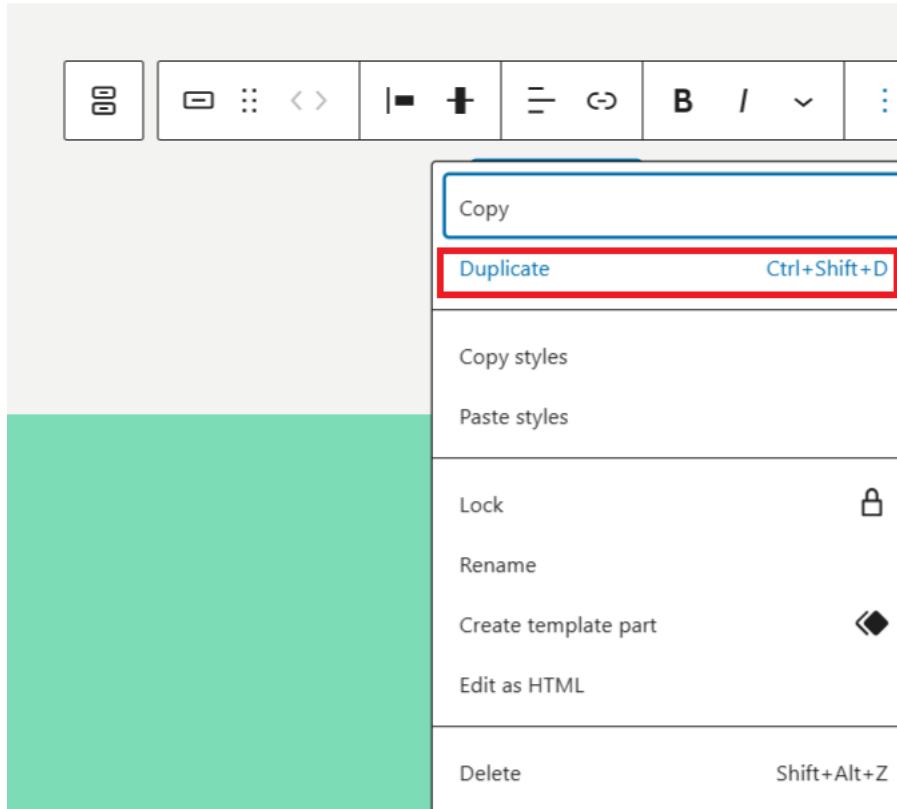

Colours

Layout

2. Then choose any style you want and then click on save button on top menu bar on right side.

7. You can include multiple buttons in header by right-clicking on the selected button and choose duplicate value to populate header with more buttons.

Additionaly you can also change the style of each button as shown below:

[Blog Home](#)

Tour and Travel

8. Now you can include body section by selecting any pattern from **toggle block inserter**. For instance, we have selected **Image Gallery** or **Gallery** from pattern and chose the best-suited pattern to include in body section.

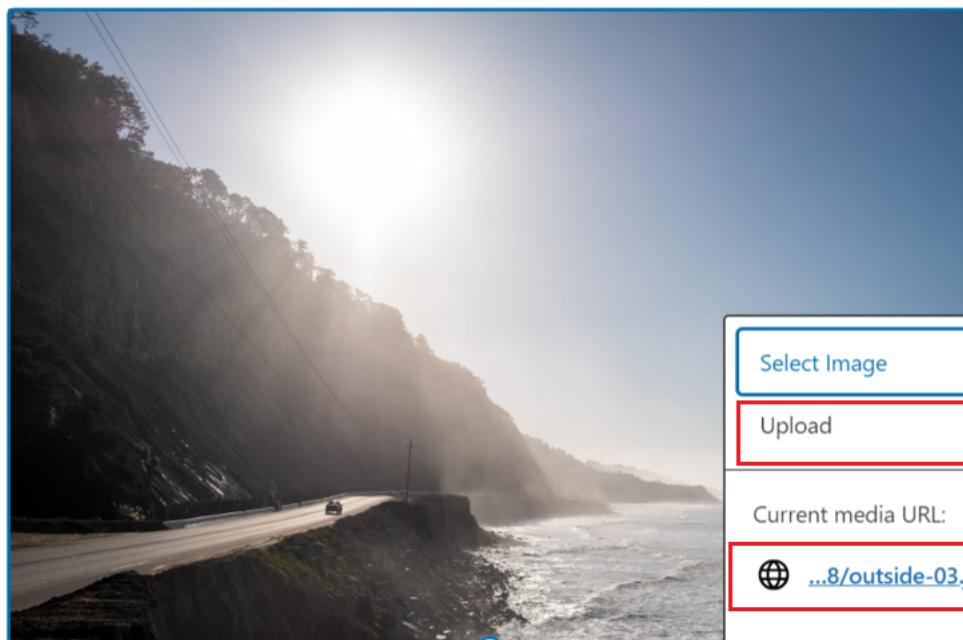

The screenshot shows the WordPress Block Editor interface. At the top, there's a toolbar with icons for search, undo, redo, and alignment. Below the toolbar, there are three tabs: 'Patterns', 'Blocks', and 'Media'. Under the 'Blocks' tab, several block types are listed with arrows: 'Featured', 'Blog Posts', 'Text', 'Image Gallery' (which is highlighted with a red border), and 'Call to Action'. To the right of the blocks, a preview area displays a post titled 'Positive growth.' featuring a yellow header, a large image of a coastal road at sunset, and two smaller images of a forest and wind turbines.

9. You can also change the background color of the body section or header section by navigating in style options at top right corner and then choose background color to change it.

The screenshot shows the WordPress Block Editor with a yellow background. On the right side, there's a style panel with a 'Solid' color swatch selected, showing a yellow color code '#F5EAC1'. Below the color swatches, there are sections for 'THEME' and 'DEFAULT' colors, each showing a set of colored circles. The main content area features a large black title 'Positive growth.' and a subtitle 'Nature, in the common sense,'.

Similarly the button background color can also be changed.

10. After this, you can replace the images by selecting image, choosing the replace option, and then uploading or including the URL by clicking on the pencil icon for the desired image.

11. The final page looks like below:

Exercise 4: Create About Us Page of Travel Website

You need to create one **About Us page** which will include the information of your website and 3 of the popular travel sites. For this, you need to follow the given steps.

1. Begin by selecting the WordPress logo located in the upper left corner. Next, go to the 'Pages' section, where you should click the + symbol to initiate the creation of a new page. Name this new page 'About,' and it will be generated.

The screenshot shows the WordPress dashboard under the 'Pages' section. At the top, there is a navigation bar with the WordPress logo, the site title 'Tour and Travel', and a search icon. Below this, there is a list of pages. The first item is 'Blog Home', followed by 'About', which is highlighted with a red box. Other items in the list are 'Page: 404' and 'Search Results'. At the bottom of the list, there is a link 'Manage all pages'. A red box also highlights the '+' button in the top right corner of the page list area.

2. Once more, select the **toggle inserter block** option, and from the Patterns tab, opt for the **About** section. Alternatively, you can select any other pattern that aligns with your design preferences.

For example, the highlighted pattern for the **About** section in a striking red color has been chosen for the **About** page.

The screenshot shows the Webflow Patterns library on the left and the 'About' page design on the right. The library has tabs for 'Patterns', 'Blocks', and 'Media'. The 'About' pattern is selected and highlighted with a red border. In the 'About' page design, a block pattern titled 'About me' is inserted, also highlighted with a red border. A message at the bottom of the library panel says 'Block pattern "About me" inserted.'

3. This layout consists of two columns. Should you desire to expand the width of the first column to align with your **About** page design, you have the option to delete one of the columns.

About me and the show

Podcasts combine elaborate and artistic sound production with thematic concerns ranging from scientific research to slice-of-life journalism. Many podcast series provide an associated website with links and show notes, and even a community forum dedicated to discussing the show's content.

[Learn more](#)

Template > Group > Columns > Column > Image

- After selecting the first column, you can widen it by clicking on the entire column, as indicated in step 1. Next, input the value **100** in step 2 to extend the column's width to cover the entire row.

The screenshot shows a web editor interface with a toolbar at the top containing icons for back, forward, search, and other functions. Below the toolbar is a row of buttons for text alignment, font size, and other styling. A main content area contains a section titled "About me and the show". This section includes a large heading, a descriptive paragraph about podcasts, and a "Learn more" button. A red box highlights the entire content area, and a red number "1" is positioned to the right of the content.

5. Following these steps, you can make the necessary adjustments to input content relevant to your travel-related website. Additionally, you have the option to center-align the entire content using the **Align** property, as demonstrated in the provided screenshot.

The screenshot shows a web editor interface similar to the previous one, but with a focus on text alignment. The toolbar includes alignment options: "Align text left" (highlighted with a red box), "Align text centre", and "Align text right". The main content area contains the same "About me and the show" section as the first screenshot. The text "Podcasts combine elaborate a" is aligned to the left. A red box highlights the "Align text left" option, and a red number "1" is positioned to the right of the content.

6. If you wish to add additional columns following the first row, you can also duplicate them by selecting the column and then clicking on the three dots that appear at the end. Here you can enter the related data of your about section.

About me and the show

Podcasts combine elaborate and detailed sound production with thematic content ranging from scientific research to life journalism. Many podcast series have an associated website with links to notes, and even a community forum dedicated to discussing the show's content.

If you're looking for a podcast that goes beyond surface-level discussions, this is the show for you. It dives deep into the heart of what it means to be human, this is a transformative experience that will broaden your horizons, challenge your perspectives, and remind you of the power of empathy. Prepare to be enlightened, and inspired.

— Ray Cordova

Note: You can also change the buttons background colors as discussed in the previous exercise.

Exercise 5: Create Contact Us and Destination Page of Travel Website

In this lab, you need to set up a **Contact Us** page for users to reach out via email. Lastly, establish a **Destinations** page that includes two categories, **Beach** and **City**, each featuring 2-3 items complete with images and descriptions. Follow the provided instructions to complete these tasks.

1. For the contact us page, create a new page. You can choose the pattern of your choice and include it in your page.

First name(required)

Email(required)

Message

Send

2. You can enhance the contact us page by including one more pattern below above pattern.

Where to find us

We earned a reputation for designing beautiful and innovative buildings that delight and inspire. We strive to deliver innovative solutions that have a minimal impact on the environment.

Address:

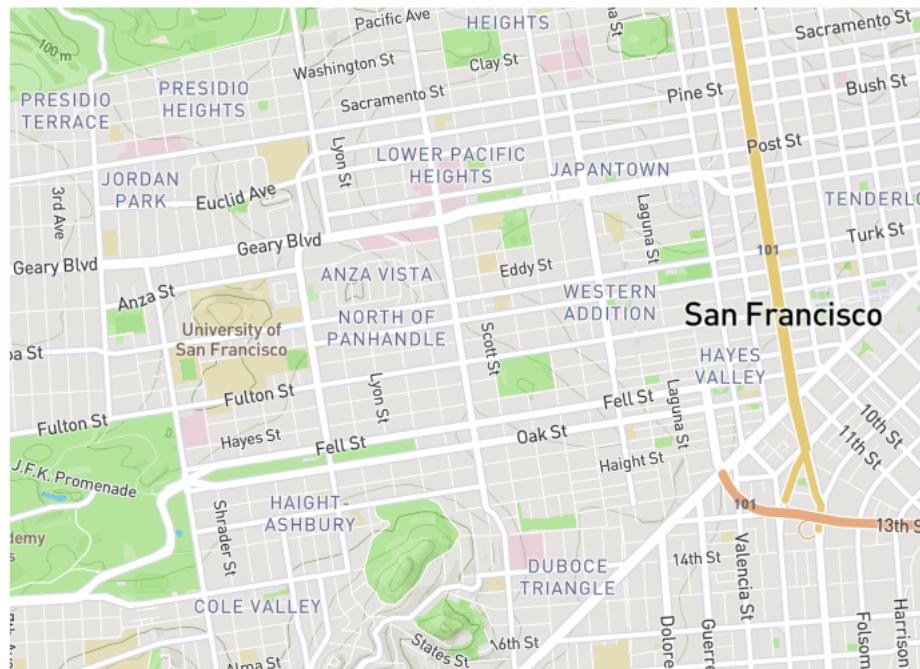

C. de Preciados, 374 37201

Telephone:

0123-456-7890

Email:

contact@example.com

3. The completed **Contact Us** section will resemble the following:

4. Similarly, you can create one page for destinations and select a pattern according to your design layout. You can take reference from the destinations page shown in the below screenshot by clicking on **Image Gallery** or **Gallery**.

5. Make changes in the selected pattern and replace images and text based on your chosen images.

Rome, Italy

Rome, Italy, stands as an eternal city where history, culture, and art converge in a magnificent tapestry that beckons travellers from across the globe. Steeped in millennia of history, Rome offers a captivating journey through ancient ruins, such as the Colosseum and Roman Forum, where you can walk in the footsteps of emperors and gladiators. The Vatican City, home to St. Peter's Basilica and the Sistine Chapel, is a spiritual and artistic marvel. Rome's cobbled streets lead to charming piazzas, where you can savour authentic Italian cuisine, from mouth-watering pasta dishes to gelato that's pure perfection.

Paris, France

Paris, France, is an iconic destination that continues to captivate visitors with its rich history and modern allure. Known as the "City of Love" and "City of Light," Paris is a blend of tradition and innovation, with a modern vibrancy. Its streets are lined with world-class museums, including the Louvre Museum, and Notre-Dame Cathedral, offering a glimpse into the city's past. Whether you're sipping coffee in a sidewalk cafe or indulging in a romantic boat ride on the Seine, Paris provides an unforgettable experience for every traveller.

Exercise 6: Create Recommendations Page of Travel Website

In this lab, you need to set up a **Recommendations** page for users. To create this page, you need to follow given steps.

1. This page will have 2 categories for users to explore.
 - Adventurous Trips
 - Family trip
2. You will create one common page to show at least 4 destination places: two for family trips and the other for adventurous trips.
3. Then you will create one page for each destination which will have 2-3 items with images, descriptions, and how to reach there.
4. To create common page for the recommendations, you need to add a new page among other pages.

Pages

Add**Recommendations****Destinations****Home Page****ContactUs****about page**

5. After this, you can go inside the page and choose the desired pattern of your choice to recommend two categories for destinations.
6. You can now create one page for each destination to give more information about these destinations.
7. Again, you can choose the pattern of your choice to show more information about each destination place by adding images, descriptions, and information about how to reach there. You can also create buttons to explore more about destinations and see packages for how to reach there.
8. One more instance has been given below for your reference.

SRI LANKA

*Journey
to
paradise.*

Sri Lanka, often referred to as the "Pearl of the Indian Ocean," beckons travelers with its diverse and enchanting landscapes. From pristin coastlines to lush tea plantations in the central highlands, and from ancient temples and historic cities to abundant wildlife in its national p experiences for all types of adventurers. Immerse yourself in the rich cultural heritage as you explore the ancient city of Anuradhapura or Savor aromatic and spicy cuisine, from savory curries to sweet tropical fruits. With its warm and welcoming people, Sri Lanka promises a natural beauty, cultural treasures, and authentic encounters.

[Explore More](#)

How to reach here

Getting to Sri Lanka is relatively straightforward, with international flights arriving at Bandaranaike International Airport in Colombo, the international gateway. Numerous airlines offer direct flights to Colombo from major cities around the world. Alternatively, you can also opt for flights to International Airport in Hambantota or other domestic airports depending on your final destination within Sri Lanka. Once in the country, you can reach most attractions via **domestic flights, trains, buses, and taxis**. Sri Lanka has a well-developed road network, making it convenient to explore by car. Please note that visa requirements may vary depending on your nationality, so be sure to check and obtain the necessary documentation before your trip. Overall, Sri Lanka offers a seamless and accessible experience for those seeking to explore its natural beauty, rich culture, and historical sites.

[See Packages](#)

Exercise 7: Linking Pages With Menu Items

In this lab, you will gain the knowledge to connect the homepage with all its pages through the header's menu buttons.

1. To access the 'All Pages' section, begin by navigating through the left sidebar of the interface or going back to dashboard of the WordPress site. Once in the sidebar, locate and hover on the **Pages** menu item and then click on **All Pages** option.

2. Next, click on the ellipsis (three dots) for the **About** page, as indicated by number 1, and then proceed to select 'Copy the link,' marked as number 2.

The screenshot shows a list of four posts in a WordPress dashboard:

- Place1_SriLanka** (4 days ago)
- Destinations** (7 days ago)
- ContactUs** (Aug 30, at 3:24 AM)
- about page** (Aug 9, at 12:41 PM)

3. Following that, navigate to your site's Home Page and choose the header section.

4. Next, choose the About menu button and click on the pencil icon to edit. If the button you are creating has no predefined link in it, then you can click in edit link highlighted in black color and then edit.

5. A text box will appear, where you can paste the copied link.

6. Reiterate the procedure for the remaining menu buttons to establish links to their respective pages.

Congratulations! You have completed the lab, Build a Mini Website on WordPress for Travel.

Summary:

In this lab, you set up a WordPress account and created a travel website using stunning themes and multi-page construction.
